

Recommendation for Rickard Gille CHRO at Niscayah.

To whom it may concern.

I have known and worked with Rickard Gille in the last 3 years through my work as director and manager of Niscayah A / S, Denmark.

Rickard has been directly involved in recruitment, testing and evaluation of new managers in the company during this period. During the same period Rickard has been the driving force in our Manager training in Denmark, including personal tests, personal development and not at least optimizing the cooperation of the manager group as the primary work.

Duties, that Rickard has solved perfectly to everyone's and my satisfaction.

Rickard is a very competent, able and sociable person with a great human insight and experience.

He managed, to turn a negative management team here in Denmark into an effective and positive group instead.

I have no doubt that Rickard in his new job will be a huge win for his new company and I can only give Rickard my 100% recommendation which I personally will deepen if this is requested.

With Best Regards
Niscayah A / S
