

Recommendation for Rickard Gille, CHRO at Niscayah Group

I have had the pleasure to work with Rickard Gille during the past three years, in which time I personally and my colleagues have learned a lot about people behaviour and how to increase efficiency in the company.

Co-operation with Rickard has mainly covered:

- Going through change processes in the company, where it was necessary to establish new management to run the company
- Management team development/training including team profiles, team skills and team development
- Senior level business and life coaching

The outcome has been an encouraging atmosphere where,

- Understanding and efficiency of teamwork has developed
- Meetings are more organized
- In management team having right people
- Clearing the business and staff ideas has improved
- Clearing goals, targets and processes has improved

I appreciate Rickard in the way he encourages people, his high value of coaching aspect and very organized way to run workshops.

I can warmly recommend him in the above areas and I will be happy to give more feedback when and if necessary.
